

## Senior Software Engineer

## SUMMARY

Results-driven Full Stack Developer with 5+ years of experience building scalable enterprise applications using React.js, Node.js, Spring Boot, Power Platform, AWS, and Azure. Experienced in frontend and backend development, workflow automation, cloud integrations, REST APIs, and microservices architecture within Agile environments. Proven expertise in application support, production issue resolution, performance optimization, and delivering high-quality business solutions on time. Skilled in client collaboration, system design, CI/CD automation, cloud deployments, and mentoring junior developers.

## Senior Software Engineer

04/2025 - Present

Firstsource Solutions Limited

Hyderabad, India

A company specializing in product development and IT solutions.

- Developed and maintained **scalable React.js applications**, improving UI responsiveness and overall user experience.
- Enhanced and supported Spring Boot services, ensuring seamless API integration and performance optimization.
- Handled **production issues, bug fixes, and enhancement requests**, ensuring adherence to SLA timelines.
- Integrated **Azure Data Lake Storage** for efficient data processing and archival.
- Built **analytics dashboards**, improving business insights and data accessibility by 35%.
- Optimized ETL workflows, reducing processing time by **40%**.
- Collaborated with clients and cross-functional teams to **gather requirements and deliver solutions** aligned with business needs

## Junior Software Engineer

10/2021 - 03/2025

Firstsource Solutions Limited

Hyderabad, India

A company specializing in product development and IT solutions.

- **Managed end-to-end product development** using **Spring Boot, React.js, AWS, PostgreSQL**, delivering scalable, high-performance solutions in an **Agile** environment.
- **Developed and deployed** scalable apps with **Spring Boot (Microservices Architecture)** and **React.js**, improving system efficiency by **35%**.
- **Implemented cloud solutions** on **AWS and Azure**, optimizing resource utilization and reducing costs by **25%**.
- **Designed and optimized PostgreSQL schemas**, boosting query performance by **30%**.
- **Led full-cycle development** of **ILM, BCM, and a Healthcare (NGO) project**, achieving **100% on-time delivery**.
- **Leveraged Docker** for **AWS deployments**, reducing deployment time by **40%** through automation.
- **Streamlined CI/CD pipelines**, resulting in a **50% faster release cycle**.
- **Created technical documentation** for **APIs and system architecture**, reducing onboarding time by **40%** and improving developer efficiency by **25%**.

## Full Stack Developer

03/2021 - 09/2021

Invincible Technologies llc

Coimbatore, India

A technology company specializing in delivering scalable and high-quality software solutions.

- Led development of mobile and web applications using Spring Boot, React.js, REST APIs, MySQL, MongoDB, AWS, and Android.
- Developed and optimized the Hyper App project, improving system performance by 30%.
- Built REST APIs using Spring Boot, ensuring seamless frontend-backend communication and reducing API response time by 25%.
- Managed AWS cloud deployments, optimizing resource usage and cutting infrastructure.
- Led a cross-functional team, boosting project delivery speed by 35% through clear task planning and coordination.
- Integrated MySQL and MongoDB, improving data retrieval speed by 40%.

## Java Web Developer (Internship)

12/2019 - 05/2020

## Smartway Industrial Automation

Coimbatore, India

A company focused on industrial automation solutions.

- Developed a real-time dashboard using Java & JSP, improving user accessibility by 20%.
- Led development of the final year project, applying full-stack development principles to deliver a functional web solution.

# Master of Computer Applications

Hindusthan college of Engineering  
and Technology

05/2017 - 05/2020 Coimbatore, India

# Bachelor of Computer Applications

Hindusthan college of Arts and Science

05/2013 - 05/2016 Coimbatore, India

## KEY ACHIEVEMENTS

🏆 Best Performer

Recognized for exceptional performance, technical excellence, and significant contributions to successful project delivery.

## Agility and Humanness

Awarded for demonstrating adaptability, collaboration, and a people-first approach in high-impact project execution.

## SKILLS

## Frontend

React.js, Redux, JavaScript (ES6+),  
TypeScript, HTML5, CSS3, Webpack

## Backend

Python (API Integration, Automation), Java (Spring Boot, Microservices), Node.js

## Database

## PostgreSQL, MySQL (Schema Design, Query Optimization), MongoDB (NoSQL Data Modeling)

## Cloud & DevOps

AWS, Azure DevOps, CI/CD Pipelines,  
Docker, Git

## AI Tools & AI-Assisted Development

Microsoft Fabric, GitHub Copilot, Prompt Engineering, Microsoft Azure OpenAI Service, AI Agent, LLM
