SUMMARY

Power Platform Developer with 5 years of experience designing and delivering enterprise-grade solutions using Power Apps (Canvas & Model-Driven), Power Automate, and Dataverse. Skilled in data modelling, API integration, and extending applications using JavaScript/TypeScript. Proven ability to translate business requirements into scalable, secure, and high-performance solutions, with experience across full application lifecycle including design, development, deployment, and support.

EXPERIENCE

Senior Software Engineer 04/2025 - Present
Firstsource Solutions Limited Hyderabad, India

- A company specializing in product development and IT solutions.
- Designed and developed **PowerApps (Canvas & Model-Driven)** applications and **Power Automate workflows** to automate complex enterprise processes.
 - Built and managed **Dataverse data models**, including tables, relationships, and role-based security for scalable solutions.
 - Developed **custom logic using JavaScript/TypeScript** to extend application functionality and improve user experience.
 - Integrated **external systems using REST APIs, JSON, and custom connectors**, enabling seamless data exchange.
 - Collaborated with stakeholders to **analyze requirements and translate them into technical solutions**
 - Ensured best practices in **solution architecture, performance optimization, security, and scalability**
 - Ensured solutions adhered to **security standards, documentation practices, and maintainability**

Junior Software Engineer 10/2021 - 03/2025
Firstsource Solutions Limited Hyderabad, India

- A company specializing in product development and IT solutions.
- Developed and delivered **20+ PowerApps Canvas applications**, streamlining workflows and reducing manual effort across multiple business units.
 - Designed and managed **SharePoint Online** and **Dataverse** data models, ensuring secure, scalable, and structured data management.
 - Built automated workflows using **Power Automate**, including approval systems, notifications, and scheduled integrations, improving process efficiency by 40%.
 - Implemented **API integrations** using HTTP actions and custom connectors to connect external systems
 - Contributed to development of applications using **Spring Boot (Microservices)** and **React.js**, improving system efficiency by 35%.
 - Participated in **testing, debugging, and performance optimization** of applications
 - Created **technical documentation** and supported deployment activities.

Full Stack Developer 03/2021 - 09/2021
Invious Technologies llb Coimbatore, India

- A technology company specializing in delivering scalable and high-quality software solutions.
- Led development of **mobile and web applications** using **Spring Boot, React.js, REST APIs, MySQL, MongoDB, AWS, and Android**.
 - Developed and optimized the **Hyper App** project, improving system performance by 30%.
 - Built **REST APIs** using **Spring Boot**, ensuring seamless frontend-backend communication and reducing API response time by 25%.
 - Managed **AWS cloud deployments**, optimizing resource usage and cutting infrastructure.
 - Led a **cross-functional team**, boosting project delivery speed by 35% through clear task planning and coordination.
 - Integrated **MySQL and MongoDB**, improving data retrieval speed by 40%.

Java Web Developer (Internship) 12/2019 - 05/2020
Smartway Industrial Automation Coimbatore, India

- A company focused on industrial automation solutions.
- Developed a **real-time dashboard** using **Java & JSP**, improving user accessibility by 20%.
 - Led development of the **final year project**, applying **full-stack development principles** to deliver a functional web solution.

EDUCATION

Master of Computer Applications
Hindusthan college of Engineering and Technology
05/2017 - 05/2020 Coimbatore, India

Bachelor of Computer Applications
Hindusthan college of Arts and Science
05/2013 - 05/2016 Coimbatore, India

KEY ACHIEVEMENTS

- Best Performer**
Recognized for exceptional performance, technical excellence, and significant contributions to successful project delivery.
- Agility and Humanness**
Awarded for demonstrating adaptability, collaboration, and a people-first approach in high-impact project execution.

SKILLS

Microsoft Power Platform
PowerApps (Canvas Apps), Power Automate, Dataverse, SharePoint Online, Power Pages (POC), Copilot Studio (POC), Custom Connectors, API Integration, Solution Design, Governance

Integration & Data
REST API, JSON, XML, Data Integration, Data Transformation

AI & Automation
Azure OpenAI Service, Prompt Engineering, LLM Integration, AI Agents, Microsoft Fabric, GitHub Copilot

Frontend
React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend
Python, Java (Spring Boot), Node.js

Database
PostgreSQL, MySQL, MongoDB

Cloud & DevOps
AWS, Docker, Azure DevOps, CI/CD, Git
