SUMMARY

Results-driven **Software Engineer** with **4+ years of experience** in **Agile development**, specializing in building **scalable, high-performance software solutions**. Proven track record of **optimizing system performance**, **reducing operational costs**, and **enhancing user experience**. Adept at working with **cross-functional teams** to deliver robust, on-time solutions. Committed to continuous improvement, innovation, and delivering business value through clean and efficient code.

EXPERIENCE

Senior Software Engineer 04/2025 - Present
Firstsource Solutions Limited Hyderabad, India

- A company specializing in product development and IT solutions.
- Performed data analysis and pipeline development using **Python (PySpark)** within **Microsoft Fabric Lakehouse**, enabling efficient handling of large-scale structured and semi-structured data.
 - Integrated **Azure Data Lake Storage** for seamless ingestion, processing, and archival of business-critical datasets.
 - Built interactive dashboards and analytics views, improving **data accessibility and business insights by 35%**.
 - Contributed to **React.js** and **Node.js** applications, ensuring scalable UI and efficient backend API communication.
 - Streamlined data workflows, reducing ETL processing time by **40%** and increasing data reliability.

Junior Software Engineer 10/2021 - 03/2025
Firstsource Solutions Limited Hyderabad, India

- A company specializing in product development and IT solutions.
- Managed end-to-end product development using **Spring Boot, React.js, AWS, PostgreSQL**, delivering scalable, high-performance solutions in an **Agile** environment.
 - Developed and deployed scalable apps with **Spring Boot (Microservices Architecture)** and **React.js**, improving **system efficiency by 35%**.
 - Implemented cloud solutions on **AWS and Azure**, optimizing **resource utilization** and reducing costs by **25%**.
 - Designed and optimized **PostgreSQL** schemas, boosting **query performance by 30%**.
 - Led full-cycle development of **ILM, BCM, and a Healthcare (NGO) project**, achieving **100% on-time delivery**.
 - Leveraged **Docker** for **AWS deployments**, reducing **deployment time by 40%** through automation.
 - Streamlined **CI/CD pipelines**, resulting in a **50% faster release cycle**.
 - Created technical documentation for APIs and system architecture, reducing **onboarding time by 40%** and improving **developer efficiency by 25%**.

Full Stack Developer 03/2021 - 09/2021
Invicuous Technologies llb Coimbatore, India

- A technology company delivering high-quality software solutions.
- Led development of mobile and web applications using **Spring Boot, React.js, REST APIs, MySQL, MongoDB, AWS, and Android**.
 - Developed and optimized the **Hyper App project**, improving **system performance by 30%**.
 - Built **REST APIs** using **Spring Boot**, ensuring seamless frontend-backend communication and reducing **API response time by 25%**.
 - Managed **AWS cloud deployments**, optimizing **resource usage** and cutting **infrastructure costs by 15%**.
 - Led a **cross-functional team**, boosting **project delivery speed by 35%** through clear task planning and coordination.
 - Integrated **MySQL and MongoDB**, improving **data retrieval speed by 40%**.

Java Web Developer 12/2019 - 05/2020
Smartway Industrial Automation Coimbatore, India

- A company focused on industrial automation solutions.
- Developed a **real-time dashboard** using **Java & JSP**, improving **user accessibility by 20%**.
 - Led development of the **final year project**, applying **full-stack development principles** to deliver a functional web solution.
 - Enhanced **problem-solving skills**, optimizing **application performance by 20%** through code-level improvements and logic refinement.

EDUCATION

Master of Computer Applications

Hindusthan college of Engineering and Technology
05/2017 - 05/2020 Coimbatore, India

Bachelor of Computer Applications

Hindusthan college of Arts and Science
05/2013 - 05/2016 Coimbatore, India

KEY ACHIEVEMENTS

Best Performer
Recognized for exceptional performance, technical excellence, and significant contributions to successful project delivery.

Agility and Humanness
Awarded for demonstrating adaptability, collaboration, and a people-first approach in high-impact project execution.

SKILLS

Frontend
React.js, Redux, HTML, CSS, JavaScript, TypeScript, Webpack

Backend
Java, Spring Boot (Microservices), Python(Django, Flask) RESTful API, Node.js

Database
PostgreSQL, MySQL, MongoDB

Cloud & DevOps
AWS, Docker, Azure DevOps, CI/CD, Git

Data & Tools
Python (PySpark), Microsoft Fabric Lakehouse

Other
Agile, Unit Testing (JUnit), REST, Microservices Architecture
